

<b>Course Code</b> OGEN-480	<b>Course Title</b> Special Topics in Energy, Oil and Gas	<b>ECTS Credits</b> 2-6
<b>Department</b> Management & MIS	<b>Semester</b> Fall / Spring	<b>Prerequisites</b> None
<b>Type of Course</b> Major Elective	<b>Field</b> Energy, Oil and Gas Management	<b>Language of Instruction</b> English
<b>Level of Course</b> Undergraduate	<b>Year of Study</b> 4 <sup>th</sup>	<b>Lecturer(s)</b> Faculty
<b>Mode of Delivery</b> face-to-face	<b>Work Placement</b> N/A	<b>Co-requisites</b> None

### **Objectives of the Course:**

This course allows the faculty and the Department to organize a class to focus on new developments in the field or topics that cannot adequately be covered in the structured courses of the programme. The number of ECTS is variable, between 2 and 6, this being determined by the total hours, in class and for reading and at home preparation. As a rule, 1 ECTS is awarded for every 25 hours of student involvement. The course may end with a final examination or a student project or a written/oral report.

### **Learning Outcomes:**

Students are able to apply problem-solving skills developed during the special topic they choose; understand the background and context of the special topic, and its application to the industry; and present findings of independent study

### **Course Content:**

### **Teaching Methods:**

---

**Assessment Methods:**

This is determined in collaboration with students and lecturers and is defined by the outcomes and content developed for the special topic.
