1st Cycle	4th	Dr Marios Valiantis
Mode of Delivery	**Work Placement**	**Co-requisites**
face-to-face	N/A	None

Objectives of the Course:

This course allows the faculty and the Department to organize a class to focus on new developments in the field or topics that cannot adequately be covered in the structured courses of the programme. The course may end with a final examination or a student project or a written/oral report.

Learning Outcomes:

Students are able to apply problem-solving skills developed during the special topic they choose; understand the background and context of the special topic, and its application to the industry; and present findings of independent study

Assessment Methods:

This is determined in collaboration with students and lecturers and is defined by the outcomes and content developed for the special topic.
