None	School of Business	Fall, Spring
Type of Course	Field	Language of Instruction
Required	Research	English
Level of Course	Lecturer(s)	Year of Study
2 nd Cycle	Dr. Leonidas Efthymiou	1 st or 2 nd
Mode of Delivery	Work Placement	Corequisites
Distance Learning	N/A	None

Objectives of the Course:

'Scholarship and Research', is based on the assumption that postgraduate scholarship provides skills fundamental for achieving competence in the other courses of the master's programmes, as well as for undertaking the MBA Thesis. The course is designed to develop your knowledge and understanding of academic practice and research. It utilises a research process and problem-based learning approach to develop your practical competence in aspects appropriate to academic practice and research in business and management.

Learning Outcomes:

After studying this course, students should be able to:

1. Write in a clear and logical academic style applying critical thinking skills, understanding the importance and application of referencing (i.e. Harvard)
2. Identify appropriate areas of literature for a specific business research topic;
3. Understand the philosophical and methodological basis of key approaches to academia and academic research
4. Put in practice a wide range of research methods (qualitative and quantitative) as appropriate to specific research questions, goals and/or objectives;
5. Demonstrate an understanding of research principles, identify the concepts to be addressed and the components to be included in a business research proposal;

“Details on the contribution of the course’s learning outcomes towards the learning goals / competencies and learning objectives of the programme are included in the curriculum map of each programme”.
