

Course Code NUTR-560	Course Title Management, Health & Social Policy	Credits (ECTS) 7.5
Department Life and Health Sciences	Semester Spring	Prerequisites None
Type of Course Required	Field Dietetics/Nutrition	Language of Instruction English
Level of Course 2 nd Cycle	Year of Study 2 nd year	Lecturer Dr Emilia Vassilopoulou
Mode of Delivery Face-to-face	Work Placement N/A	Co-requisites None

Objectives of the Course:

The course provides a multidisciplinary learning environment in which to study health and social care services management. The overall aim is to develop effective professionals:

- people who are able to engage with health and social policies,
- clarify strategic goals, implement strategic planning
- manage and monitor good practice,
- manage themselves and others in the pursuit of excellence in a multidisciplinary context.

It begins by enabling students to be analytical of their own and others' behavior in relation to management processes, focusing on their capacity to manage their own time, priorities and development, as well as identify themselves with organizational strategic direction and goals.

Learning Outcomes:

Successful students will be engaged with learning opportunities, which examine areas such as strategy development, the management of change and financial management. They will be able to examine methods to evaluate performance, quality and risk, and will be offered a structured set of options to review management issues that are specific to the policy areas of their own service, including healthcare, social welfare and public health.

Learning Activities and Teaching Methods:

Lectures, presentations, case studies, assignments

Assessment Methods:

Midterm exam, Assignment, Final Examination
