

Course Code PSY-710	Course Title Clinical Psychometric Assessment II	ECTS Credits 7.5
Department Social Sciences	Semester Spring 2015	Prerequisites None
Type of Course Major Requirement	Field Clinical Psychology	Language of Instruction English
Level of Course Doctoral	Year of Study 2nd	Work Placement N/A
Mode of Delivery face-to-face	Lecturer(s) Dr. Yianna Ioannou	Contact information loannou.yi @unic.ac.cy

Objectives of the Course:

This course aims to familiarize students with the administration, scoring, and interpretation of major personality and emotional functioning assessment tools, such as personality inventories, projective tests, and drawings. The course will focus on administration, scoring and interpretation of various tests, as well as the process of synthesizing the findings and presenting them in an assessment report. Finally, ethical and professional issues in personality assessment and use of assessment findings will also be considered.

Learning Outcomes:

After completion of the course students are expected to:

1. Develop familiarity with the administration, scoring, and interpretation of some of the most widely used measures of personality and emotional functioning.
2. Demonstrate ethical and professional interpersonal skills for evaluating clients while being able to identify the clinical applications of assessment instruments.
3. Have the ability to develop clinical formulations based on assessment findings.
4. Present assessment findings in a clinical report.
5. Communicate findings in ways appropriate to the referral questions.

Learning Activities and Teaching Methods:

Lectures, in-class workshops, group discussion, individual and group assignments

Assessment Methods:

1	2 Midterm projects
2	Workshops
3	Final examination
4	Attendance and Participation
	Total
