

Course Code PSY-763	Course Title Doctoral Seminar III- Program Design and Evaluation	ECTS 5
Department Social Sciences	Semester Spring	Prerequisites None
Type of Course Required	Field Clinical Psychology	Language of Instruction English
Level of Course 3 rd Cycle	Year of Study 3 rd	Lecturer Marios Adonis
Mode of Delivery Face-to-face	Work placement N/A	Co-requisites None

Objectives of the Course:

The course is designed to prepare students in the independent development and systematic evaluation of empirically based prevention and intervention programs.

Learning Outcomes:

- After completion of the course students are expected to be able to:
1. Independently design prevention programs
 2. Understand implications of social and cultural factors for program evaluation.
 3. Assess the evaluability of a program.
 4. Develop experimental and quasi-experimental program evaluation designs.
 5. Select or develop appropriate measurement tools.
 6. Understand strengths and weakness of a variety of data sources.
 7. Choose relevant theories and operationalize relevant constructs.
 8. Identify stakeholders and their role in evaluation.
 9. Understand methods to enhance utilization of evaluation
 10. Have a critical grasp of ethical issues at each stage of the evaluation process, including a working understanding of means to address these issues.

Course Contents:

1. Foundations of the Participatory Culture-Specific Intervention Model
2. Critical components of effective comprehensive mental health programs
3. Translation of theory into measurement and specification of variables
4. Experimental designs
5. Appropriate development of measurement tools
6. Development of timely and ongoing stakeholder and community involvement in design and implementation of evaluation
7. Ethical issues

Teaching Methods:

Lectures, readings, program design, program evaluation

Required Textbooks:

Authors	Title	Publisher	Year
Rossi, P. H., Lipsey, M. W., & Freeman, H. E..	Evaluation: A Systematic Approach	Sage	2003
	Selected readings		

Assessment Methods:

1	Program Design
2	Program Evaluation
3	Presentation
