### Course Objectives:

This is the last of a three-semester practicum seminar sequence. The course will function primarily as a forum for peer supervision, clinical consultations and personal development for clinical psychology trainees placed at various sites where clinical psychology is applied. Emphasis will be given to case conceptualization, therapy interventions, therapy process and therapy termination.

### Learning Outcomes:

After completion of the course students are expected to be able to:

1. Students will conceptualize and formulate clinical cases.
2. Students will conduct individual and group psychotherapy (when applicable).
3. Students will engage in self-reflection to identify potential emotional barriers to treatment.
4. Students will learn to seek peer consultation and supervision for clinical impasses.
5. Students will demonstrate psychological mindedness, critical and clinical thinking.

### Course Content:

N/A
