Dr Chris Alexander & Mr Vladislav Kolev

Microsoft Cuts Support For IE 11; Articulate Follows Suit

IMPORTANT: Articulate 360 will discontinue support of Internet Explorer 11

"Starting in January 2022, we will remove support for Internet Explorer 11 (IE11) browsers from all Articulate 360 web apps.

This change impacts lecturers and students using IE11 with Articulate 360 or Storyline 3 or visiting Articulate.com and the E-Learning Heroes community. Here's what you need to know:

Beginning January 1, 2022, you won't be able to:

View Articulate.com or the E-Learning Heroes community using IE11

Beginning July 1, 2022, you won't be able to:

View courses published from Storyline 360, Studio 360 in IE11

Publish to CD from Storyline 360 and Studio 360

Beginning October 1, 2022, you won't be able to:

View courses published from Storyline 3 in IE11

Publish to CD from Storyline 3

If you're currently using IE11, we recommend switching to a supported browser like

Microsoft Edge (https://bit.ly/3kphgi7)
Google Chrome (https://bit.ly/3DeFNxG)
Mozilla Firefox (https://mzl.la/3n0kLNG)

"
