Spotlight On Moodle

Want To Do Peer Assessment Or Adaptive Learning?

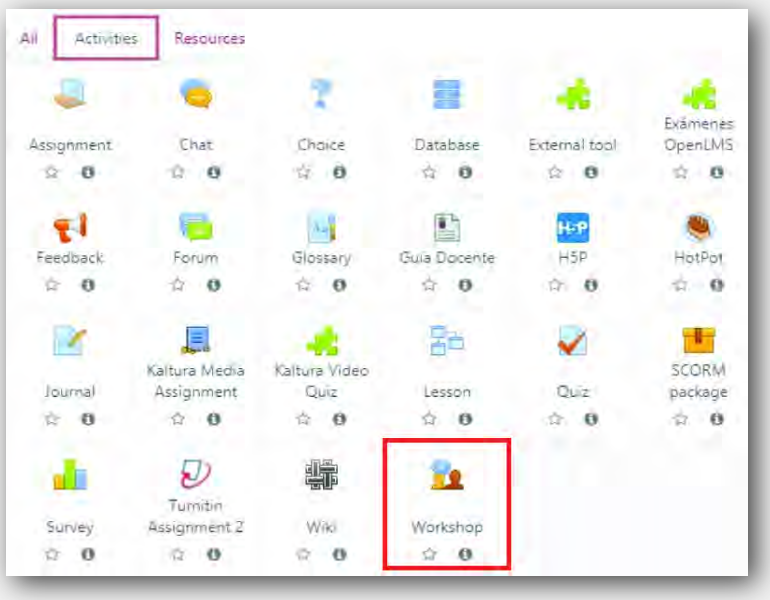

Have you considered using Moodle Workshop or Lesson activities? **TELC provides regular one-to-one or group training on these activities.**

1 Add A Workshop Activity In Your Moodle Course For A Peer Assessment Activity!

A Workshop in Moodle is a peer assessment activity with many options. Students submit their work via an online text tool and attachments. There are two grades for each student: a grade for their submitted work, and a grade for their peer assessments of other students' work.

For a video summary of the Workshop activity, see

https://www.youtube.com/watch?v=7cYG1d87jSo&t=552s&ab_channel=Moodle

Workshop Phases:

The work flow for the Workshop module can be viewed as having five phases. The typical workshop activity can cover days or even weeks. The teacher switches the activity from one phase to another.

The typical workshop follows a straight path from Setup to, Submission, Assessment, Grading/Evaluation, and ending with the Closed phase. However, an advanced recursive path is also possible.

The progress of the activity is visualized in so called Workshop planner tool. It displays all Workshop phases and highlights the current one. It also lists all the tasks the user has in the current phase with the information of whether the task is finished or not yet finished or even failed.

For more reading on Workshop, see the Moodle docs on Workshop activity here:

https://docs.moodle.org/311/en/Workshop_activity

2 Add A Lesson Activity In Your Moodle Course For An Adaptive Learning Activity!

The Lesson activity allows teachers to create 'branching' exercises where students are presented with content and then, depending on their responses, are directed to specific pages.

The content may be text or multimedia.

For more reading on Lesson, see the Moodle docs on Lesson activity here
https://docs.moodle.org/311/en/Lesson_activity

For a video of the Lesson activity, see
